PROFILE

10+ years in international operations taught me to make high-stakes decisions with whatever information was available. What I lacked was the analytical infrastructure to make those calls with confidence — so I went and built it. I retrained in SQL, Python, Tableau, and Excel, and what I discovered is that my background isn't a detour. It's an advantage. Most analysts learn to read data. Very few understand what it feels like to need that data. I bridge the gap between analysis and action — and I communicate findings to non-technical audiences because I was that audience for over a decade.

EDUCATION & TRAINING

Data Analytics Program	· IronHack	Mar 2026 – Jun 2026
Data Analytics Program	· CareerFoundry	Nov 2025 – Feb 2026
Certificate in Business	· Insper, São Paulo	2013 – 2014
Bachelor's in Tourism	· Universidade de São Paulo (ECA)	2006 – 2009

DATA ANALYTICS PROJECTS

01 **Brazil's Road Back – International Tourism Recovery Analysis** *Python · pandas · Tableau · Streamlit · EDA*

Brazil's tourism board needed to understand whether international arrivals had fully recovered from COVID-19, and who was driving that recovery. Analyzed a decade of official government and UN Tourism data to track the recovery timeline, entry routes, and shifting visitor markets. Delivered two Tableau dashboards and a Streamlit travel recommender app built on the findings.

02 **Hotel Booking Cancellation Predictor** *Python · scikit-learn · Classification · Hyperparameter Tuning*

A hotel group needed to predict which bookings were likely to be cancelled in order to manage overbooking and revenue risk. Built and compared 9 classification models on booking and customer behavior data, then tuned the best-performing model with RandomizedSearchCV. Identified class imbalance as a key limitation and outlined next steps to address it.

03 **Rockbuster – SQL Revenue & Customer Analysis** *SQL (PostgreSQL, MySQL) · Relational Databases · CTEs · Subqueries · Joins · Tableau*

Rockbuster needed to understand where revenue was concentrated before planning expansion. Queried a relational database to uncover rental patterns, top-grossing titles, and high-value customer locations by region. Recommended prioritizing the top 10 markets and targeting specific genres and ratings to drive revenue growth.

04 **Instacart – Customer Segmentation & Marketing Strategy** *Python · pandas · Jupyter Notebooks · Seaborn · Matplotlib · Data Wrangling*

Instacart needed to move beyond broad promotions and target the right customers at the right time. Segmented customers by behavior, loyalty, demographics, and region to identify peak windows, high-spend patterns, and product preferences. Delivered a targeted campaign strategy by region, time of day, and customer profile.

05 **Vanguard A/B Test – Digital Process Redesign** *Python · A/B Testing · Hypothesis Testing · Tableau*

Vanguard wanted to know whether a redesigned digital interface actually improved client completion rates. Ran a full A/B test analysis on over 300,000 client sessions, including hypothesis testing on completion rate, time spent, and error rate, plus an honest evaluation of the experiment's design and limitations. Team project with Hina Haq and Jorge Barrios Hurtado.

WORK EXPERIENCE

Director of Operations · Ventura Travel GmbH

Nov 2022 – Nov 2025

- Led multi-department operations across international markets, using KPI dashboards and performance data to guide decisions and ensure brand compliance
- Managed EUR 300K+ annual budgets; monitored cost performance and implemented data-driven process improvements reducing operational costs by 10%
- Designed department-level KPI frameworks and used performance data to identify gaps and drive continuous improvement
- Mentored department heads on performance management and data-informed decision-making
- Maintained full compliance with safety, legal, financial, and corporate regulations across all markets

Ground Operations Manager · Ventura Travel GmbH

Jan 2021 – Oct 2022

- Scaled operations into 3 new markets (Southeast Asia, Japan, Africa), cutting costs by 10% while maintaining guest experience quality
- Led the full integration of an external vendor into the team — aligning them to internal processes, workflows, and culture to operate as a seamless extension of the operation
- Led cross-functional process automation projects, saving 15+ hours/week in operational tasks
- Partnered with finance teams to maintain 100% compliance across all departmental reporting

Operations & Host Manager · Hard Rock Cafe Berlin

Apr 2018 – Oct 2020

- Doubled customer loyalty program enrollments within two months by analyzing guest behavior and designing targeted engagement initiatives
- Coordinated OpenTable software rollout; used seating data to monitor and optimize host team performance against KPIs
- Designed a Lost and Found tracking process, reducing item recovery time to under 24 hours

Previous Experiences

Retail Supervisor · Hard Rock Café Berlin (2017-2018)

Retail Sales Associate · Hard Rock Café Berlin (2016)

B2B Consultant & Team Coordinator · Traveland Viagens e Turismo (2011 – 2016)

Sales Assistant & Event Consultant · Sofitel São Paulo Ibirapuera (2007 – 2011)

SKILLS

Data Analysis	Python (pandas, numpy, Jupyter Notebooks, Anaconda) · SQL-Python Integration · Web Scraping · APIs · Excel (pivot tables, data cleaning, charts) · VS Code · Git · GitHub · Version Control · Google Colab
Databases	SQL (PostgreSQL, MySQL) · CTEs · Subqueries · Joins
Visualization	Tableau · Looker Studio · Excel Charts · matplotlib · seaborn
Machine Learning	scikit-learn · Classification · Regression · Decision Trees · KNN · Ensemble Methods · Feature Engineering · Hyperparameter Tuning · Model Evaluation · Imbalanced Datasets · Streamlit
Analytics Skills	KPI Design & Monitoring · OKR Frameworks · Exploratory Data Analysis (EDA) · A/B Testing · Customer Segmentation · Predictive Modeling · Statistical Analysis · Data Preparation, Cleaning & Transformation · Revenue Analytics
Business Analysis	Requirements Gathering · Functional Specifications · Process Mapping · Workflow Documentation · Acceptance Criteria · Stakeholder Management
Operations	Budget Management · Process Automation · Cross-functional Project Management · Compliance Reporting
Platforms	Slack · ClickUp · Greenhouse · Spendesk · Payhawk · OpenTable · Opera · Micros · Sabre
Languages	Portuguese (Native) · English (Full Proficiency) · Spanish (Professional) · German (Intermediate) · Italian (Intermediate)
